RE: DEC #4-3830-00099/00001
Proposed Nassau Quarry
Nassau (T), Rensselaer County

Dear Mr. Clemente:

Previously, I forwarded to you copies of the letters received during the public comment period for the proposed Nassau Quarry. All comments and issues which are outlined in both the written comments and the transcript of the hearing must be responded to with adequate documentation and, where appropriate, revisions to the proposed plans. The Final Environmental Impact Statement should outline a response to all comments received, and documentation which fully describes any changes to the project plans and/or additional mitigation measures which are made as a result of the comments received. Responses should be thorough, and should provide documentation and data to support the conclusions where necessary.

Once the FEIS has been prepared, five copies should be submitted to my attention at the above address for Department review. Please call me if you have any questions or concerns.

Sincerely,

Nancy M. Adams
Deputy Regional Permit Administrator
Division of Environmental Permits
Region 4
